BARGAIN BABIES.

If babies were for sale the most inveterate bargain-hunting woman in the world would not look for a bargain baby. She would want the best baby that could be bought, regardless of price.
Every woman naturally craves a healthy, handsome child, and her craving can be gratified if she will but remember that the child's health is her own gift, and to give health she must

maternity, encouraging the appetite, quieting the nerves and inducing refreshing sleep. It gives the mother strength to give her child, and makes the baby's advent practically painless.
"My wife had been sick nearly all her life," says Mr. E. E. Pricke, of Petersburg, Menard Co., Illinois, Box 367, "and after trying everything I could think of I made up my mind to try 'Favorite Prescription.' I got six bottles, which my wife took, a tablespoonful three times a day, until the baby came. She felt better after taking the first bottle, and when baby was born he weighed nine and a half pounds. To-day he is six months old and weighs twenty-two pounds. He is as good a child as any one could wish. The doctor says he is as healthy as any baby could be, and also says the use of your 'Favorite Prescription' was the cause of such a healthy baby."
Dr. Pierce's Pleasant Pellets are the best and safest laxative for the use of delicate women.

HERE AND THERE.

A famous bronze statue weighing over a ton was stolen at Chicago.
Property worth \$100,000 was destroyed by fire in the business section of Memphis.
There was a disastrous wreck on the Northern Pacific railroad near Dickinson, N. D.
A great university in Pittsburg to rival the big Eastern and Western colleges is among the possibilities.
Emil Schinzel, under arrest at Indianapolis, is said to be wanted in Texas for extensive forgeries.
The Minnesota, the largest vessel built in United States waters, was launched at New London, Conn.
J. "Bud" Taylor, a former baseball player, was hanged at Kansas City for the murder of his sweetheart.
A new device to prevent locomotive wheels from slipping magnetizes the drivers so that they stick to the rails.
The Shamrock, III, while preparing to race, had everything above deck carried away by a squall which struck her.
A census of over 1,000 graduates of the Massachusetts Agricultural College shows that one in three of them are now farmers.
Such cold and snow as were experienced in the United Kingdom during the past week were unprecedented in twenty years.
Citizens resisted an attempt of officers to raid a pool room at French Lick. Two of the constables were arrested for carrying concealed weapons.
Four children were drowned in high waters in the Wabash bottoms, near Clinton Ind., while hundreds looked on, helpless to save them.
In the Western New York Old Maids' Convention at Pittsburg, President Roosevelt was denounced for his utterances relative to race suicide.
The contest over the will of Millionaire A. C. Hutchinson, president of the Morgan railroad, who left a fortune to Tulane University, New Orleans, was decided in favor of the school.
General Baldwin, the successor of General Funston in Denver, is also in trouble for talking not wisely but too much. He said the other day he liked negro soldiers because if they got killed it made no difference.
The weekly reviews of trade show that wet and cold weather materially retarded the retail trade in commodities. The iron and steel trade is again normal, with the demand keeping close to the supply. Traffic conditions continue to improve.
A mail clerk and a negro fireman were killed in a wreck on the L. and N. railroad near Castlebury, Ala. Three other mail clerks were injured. Train No. 13 ran into a siding, the switch having been left open by a preceding train.

Patti Comes High.

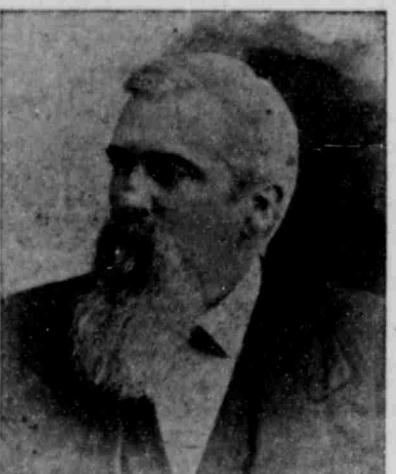

Patti's contract with her American manager covers only 96 articles. Here are some of the conditions under which she will warble in the United States: She sings in 60 concerts at the rate of \$5,000 per concert and one half of the gross receipts if same are above \$7,500, \$50,000 to be paid cash in hand and \$250,000 before she goes aboard ship, October 15. Patti selects steamer and accommodations, namely, seven rooms for herself and husband, Baron Cederstroem, and rooms for seven servants, 21 dogs, an Angora goat and some 50 birds. The above applies to travel both on land and sea. For land travel special trains are to be engaged. The manager may travel on the same train, but in a car not connected with Madame's.
Patti must receive at least three flower pieces of laurel leaves at each performance. The cheapest seats must not be below 83.
At the manager's cost Patti selects her own hotel, and her reception room must not be less than \$50 a day. Arrangements must be made with the hotel kitchen that her two mouth-cooks can prepare meals there—at the manager's expense, of course. The manager must also furnish two two-horse carriages day and night.
Patti selects the orchestra leader and the singers. The programs must have three numbers only, two songs and one operatic part with chorus from Aida, Rigoletto, Lucie, Traviana, Faust or Trouvere. Patti may sing more, but must not be asked to do so.
New Orleans and Cuba must not be included in the tournee. Patti doesn't like the climate there.

Danger of Colds and Grip.

The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy is taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by Craig & Hocker.
